

Premier Dermatology celebrates their move into their new facility in Crest Hill, IL. The 14,500 square foot one story building hosts a modern minimalist design with glass block, glazed concrete block and an interior of bamboo panels and terrazzo.

The practice, which includes 11 dermatologists, offers both cosmetic and medical services. The group is the largest dermatology practice in the state and it features one of the largest laser centers in the country. The facility will treat dermatologic disorders ranging from acne, psoriasis and eczema to skin cancer.
